B. LIMITATION OF LIABILITY PROVISION: *Read Carefully Before Signing*

1. The parties to this Agreement understand that the purpose of this “Limitation of Liability Provision” is to limit, in advance, each party’s liability in relation to this Agreement.
2. Liability for any claim brought by a party to this Agreement against the other party, including but not limited to a claim by the Company for unpaid Basic Service or Personal Service charges, or a claim by, or on behalf of, a Resident, Resident Party, or by a Resident’s Estate, Agent or Legal Representative, arising out of the care or treatment received by the Resident or the Resident’s occupancy or presence at the Company, including, without limitation, claims for medical negligence, shall be limited as follows:

C. BENEFITS OF ARBITRATION AND LIMITATION OF LIABILITY PROVISIONS

The parties’ decision to select arbitration is supported by the potential cost-effectiveness and time-savings offered by selecting arbitration, which may avoid the expense and delay of judicial resolution in the court system. The parties’ decision to select arbitration and to agree to a limitation of liability also are supported by the potential benefit of preserving the availability, viability and insurability of an assisted living company for the elderly and disabled in Florida, by limiting such assisted living company’s exposure to liability. With this Agreement, the Company is better able to offer its services and accommodations at a rate that is more affordable to the Resident. In terms of the time-savings offered by selecting arbitration, the parties recognize that often the Resident is elderly and may have a limited life-expectancy, and therefore selecting a quick method of resolution is potentially to a Resident’s advantage.

The Resident, Responsible Party, or his or her legal guardian, or authorized Power of Attorney understands that other assisted living companies’ Agreements may not contain an

arbitration provision, or limitations of liability provision. The parties agree that the reasons stated above are proper consideration for the acceptance of the Arbitration and Limitation of Liability Provisions. **The undersigned acknowledges that he or she has been encouraged to discuss this Agreement with an attorney.**

The parties to this Agreement further understand that a jury will not decide their case.

the provisions of section V., subsection C.)

VI. MISCELLANEOUS

Therefore, the Company also makes no representations or guarantees that it can always prevent a Resident from wandering or attempting to wander from the Community, entering into a private area, misplacing or losing items or engaging in physical contact with another Resident;
7. The Company makes no representations or guarantees that the Company is secure from theft or any other criminal act perpetrated by any other Resident or person; therefore, the Company recommends that valuables, including but not limited to, jewelry and large amounts of money, not be brought into the Community. If you choose to bring in such valuables, you are doing so at your own risk and the Company will not be responsible for any theft or loss of these items;
8. Due to state regulations and fire code, the Company is not permitted to lock its exterior doors and, therefore, does not guarantee that its Residents will not wander out of the Community. In our memory care buildings, the exterior doors are alarmed with a delayed egress feature and our systems are designed to alert our staff to respond and assist a Resident to safety, should they wander from the building.

You understand and agree to assume the risks inherent in this Agreement.

The Company reserves the right to recover from you any loss caused by fire, vandalism or any other acts by you or your invitees or guests. The Company may assign such right to its insurance carrier.

Except for the right of the Company to modify fees, rates and charges, amend services provided and establish reasonable operating procedures and rules for the general welfare and safety of the residents, this Agreement may be amended only in writing signed by both parties.

I. SEVERANCE

Should any part of this Agreement be invalid, the validity of the other parts of this Agreement will not be affected.

J. RESPONSIBLE PARTY

You have designated a Responsible Party, who has agreed to the terms of the attached Responsible Party Agreement and whose signature appears below.

K. SUBORDINATION

Health Care Advance Directives

The Patient's Right to Decide

Every competent adult has the right to make decisions concerning his or her own health, including the right to choose or refuse medical treatment.

When a person becomes unable to make decisions due to a physical or mental change, such as being in a coma or developing dementia (like Alzheimer's disease), they are considered incapacitated. To make sure that an incapacitated person's decisions about health care will still be respected, the Florida legislature enacted legislation pertaining to health care advance directives (Chapter 765, Florida Statutes). The law recognizes the right of a competent adult to make an advance directive instructing his or her physician to provide, withhold, or withdraw life-prolonging procedures; to designate another individual to make treatment decisions if the person becomes unable to make his or her own decisions; and/or to indicate the desire to make an anatomical donation after death.

By law hospitals, nursing homes, home health agencies, hospices, and health maintenance organizations (HMOs) are required to provide their patients with written information, such as this pamphlet, concerning health care advance directives. The state rules that require this include 58A-2.0232, 59A-3.254, 59A-4.106, 59A-8.0245, and 59A-12.013, Florida Administrative Code.

Questions About Health Care Advance Directives

What is an advance directive? It is a written or oral statement about how you want medical decisions made should you not be able to make them yourself and/or it can express your wish to make an anatomical donation after death. Some people make advance directives when they are diagnosed with a life-threatening illness. Others put their wishes into writing while they are healthy, often as part of their estate planning.

Three types of advance directives are:

- A Living Will
- A Health Care Surrogate Designation
- An Anatomical Donation

You might choose to complete one, two, or all three of these forms. This pamphlet provides information to help you decide what will best serve your needs.

What is a living will? It is a written or oral statement of the kind of medical care you want or do not want if you become unable to make your own decisions. It is called a living will because it takes effect while you are still living. You may wish to speak to your health care provider or attorney to be certain you have completed the living will in a way that your wishes will be understood.

What is a health care surrogate designation? It is a document naming another person as your representative to make medical decisions for you if you are unable to make them yourself. You can include instructions about any treatment you want or do not want, similar to a living will. You can also designate an alternate surrogate.

Which is best? Depending on your individual needs you may wish to complete any one or a combination of the three types of advance directives.

What is an anatomical donation?

It is a document that indicates your wish to donate, at death, all or part of your body. This can be an organ and tissue donation to persons in need, or donation of your body for training of health care workers. You can indicate your choice to be an organ donor by designating it on your driver's license or state identification card (at your nearest driver's license office), signing a uniform donor form (seen elsewhere in this pamphlet), or expressing your wish in a living will.

Am I required to have an advance directive under Florida law? No, there is no legal requirement to complete an advance directive. However, if you have not made an advance directive, decisions about your health care or an anatomical donation may be made for you by a court-appointed guardian, your wife or husband, your adult child, your parent, your adult sibling, an adult relative, or a close friend.

The person making decisions for you may or may not be aware of your wishes. When you make an advance directive, and discuss it with the significant people in your life, it will better assure that your wishes will be carried out the way you want.

Must an attorney prepare the advance directive?

No, the procedures are simple and do not require an attorney, though you may choose to consult one. However, an advance directive, whether it is a written document or an oral statement, needs to be witnessed by two individuals. At least one of the witnesses cannot be a spouse or a blood relative.

Where can I find advance directive forms?

Florida law provides a sample of each of the following forms: a living will, a health care surrogate, and an anatomical donation. Elsewhere in this pamphlet we have included sample forms as well as resources where you can find more information and other types of advance directive forms.

Can I change my mind after I write an advance directive? Yes, you may change or cancel an advance directive at any time. Any changes should be written, signed and dated. However, you can also change an advance directive by oral statement; physical destruction of the advance directive; or by writing a new advance directive.

If your driver's license or state identification card indicates you are an organ donor, but you no longer want this designation, contact the nearest driver's license office to cancel the donor designation and a new license or card will be issued to you.

What if I have filled out an advance directive in another state and need treatment in Florida?

An advance directive completed in another state, as described in that state's law, can be honored in Florida.

What should I do with my advance directive if I choose to have one?

- If you designate a health care surrogate and an alternate surrogate be sure to ask them if they agree to take this responsibility, discuss how you would like matters handled, and give them a copy of the document.
- Make sure that your health care provider, attorney, and the significant persons in your life know that you have an advance directive and where it is located. You also may want to give them a copy.
- Set up a file where you can keep a copy of your advance directive (and other important paperwork). Some people keep original papers in a bank safety deposit box. If you do, you may want to keep copies at your house or information concerning the location of your safety deposit box.
- Keep a card or note in your purse or wallet that states that you have an advance directive and where it is located.
- If you change your advance directive, make sure your health care provider, attorney and the significant persons in your life have the latest copy.

If you have questions about your advance directive you may want to discuss these with your health care provider, attorney, or the significant persons in your life.

More Information On Health Care Advance Directives

Before making a decision about advance directives you might want to consider additional options and other sources of information, including the following:

- As an alternative to a health care surrogate, or in addition to, you might want to designate a durable power of attorney. Through a written document you can name another person to act on your behalf. It is similar to a health care surrogate, but the person can be designated to perform a variety of activities (financial, legal, medical, etc.). You can consult an attorney for further information or read Chapter 709, Florida Statutes.

If you choose someone as your durable power of attorney be sure to ask the person if he or she will agree to take this responsibility, discuss how you would like matters handled, and give the person a copy of the document.

- If you are terminally ill (or if you have a loved one who is in a persistent vegetative state) you may want to consider having a pre-hospital Do Not Resuscitate Order (DNRO). A DNRO identifies people who do not wish to be resuscitated from respiratory or cardiac arrest. The pre-hospital DNRO is a specific yellow form available from the Florida Department of Health (DOH). Your attorney, health care provider, or an ambulance service may also have copies available for your use. You, or your legal representative, and your physician sign the DNRO form. More information is available on the DOH website, www.doh.state.fl.us or www.MyFlorida.com (type DNRO in these website search engines) or call (850) 245-4440.

When you are admitted to a hospital the pre-hospital DNRO may be used during your hospital stay or the hospital may have its own form and procedure for documenting a Do Not Resuscitate Order.

- If a person chooses to donate, after death, his or her body for medical training and research the donation will be coordinated by the Anatomical Board of the State of Florida. You, or your survivors, must arrange with a local funeral home, and pay, for a preliminary embalming and transportation of the body to the Anatomical Board located in Gainesville, Florida. After being used for medical education or research, the body will ordinarily be cremated. The cremains will be returned to the loved ones, if requested at the time of donation, or the Anatomical Board will spread

the cremains over the Gulf of Mexico. For further information, you can contact the Anatomical Board of the State of Florida at (800) 628-2594 or www.med.ufl.edu/anatbd.

□ If you would like to read more about organ and tissue donation to persons in need you can view the Agency for Health Care Administration's website <http://ahca.MyFlorida.com> (Click on "Site Map" then scroll down to "Organ Donors") or the federal government site www.OrganDonor.gov. If you have further questions you may want to talk with your health care provider.

□ Various organizations also make advance directive forms available. One such document is "Five Wishes" that includes a living will and a health care surrogate designation. "Five Wishes" gives you the opportunity to specify if you want tube feeding, assistance with breathing, pain medication, and other details that might bring you comfort such as what kind of music you might like to hear, among other things. MEDICATION POLICY

All staff will receive training on the medication as prescribed by the licensing agency for the facility, which would include training on 58A-5.0185 by a registered Nurse or Pharmacist this training will be updated annually. Each staff person will be responsible to follow that training and not deviate from it. Staff will be required to report and discrepancies to their immediate supervisor for them to follow up on.

- You cannot make changes on a prescription label. Only a pharmacist can change a prescription label.
- Record medication each time it is offered on MOR. (*Medication Observation Record*)
- You must be prepared to demonstrate that you can read and understand a prescription label.
- You may place any unused medication back into the bottle as long as it hasn't been contaminated. (If pills or other solid medication are dropped onto a clean surface, they are probably not contaminated.)
- Observe the resident's response to the medication and report redness, draining, pain, or itching, swelling, or other discomforts or visual disturbances or consumer's complaints. Know where to learn about side effects and what to look for. And do not be afraid to report any problems out of the ordinary to management or ownership.
- Reorder medications from the pharmacy 3 days prior to running out.
- Medications are to be kept in the medication cabinet at all times and locked.
- Keep up the MOR.
- The order written on the MOR must match the prescription label exactly.

- PRN (as needed) medications we cannot assist if the label does not give the reason it is being taken by the resident. (Ex for right knee Pain)
- If there is any doubt, please make it the best practice to ask for clarification (Better safe than sorry)
- Clients may use their own pharmacy, and we will do our best to work with that pharmacy but if we find resident is at risk we will have to make arrangements with the resident or family member to correct ASAP if this is not done we will need to handle in a manner that we see fit to make sure no interruption happens in the resident's medications.
- No staff may enter a medication cart until they have been properly trained, there is no exceptions to this.
- There will be a properly trained staff person on duty at all times, most medications will be handled by Med techs and not nurses, however and medications that require a nurse will be handled by a licensed nurse

Medication is one of the most serious things we aid clients with, all aspects of this must be addressed with the resident's health and safety in mind. Please take pride in this aspect of your work.
